PROFESSIONAL EXPERIENCE

Frontend Web Developer | Feb 2024 – current

Rooster Grin Media

- Designed, developed, and maintained responsive web applications using Vue.js framework, Nuxt and WordPress -- often working directly with HTML, Javascript, SASS/CSS and PHP.
- Architect content management systems for technical and non-technical users.
- Delivered website and product presentations to foster client relationships, cultivate brand trust, and elevate brand awareness.
- Prioritized ADA compliance/accessibility best practices, compatibility between different browsers, and responsive design.
- Developed web integrations with internal and external SaaS products.

Technical Project Manager | Jan 2023 – Feb 2024

Rooster Grin Media

- Selected as sole project manager to lead frontend development team, driving improvements in internal process infrastructure and website template products.
- Simultaneously coordinated 40+ projects.
- Regularly collaborated with designers to enhance design quality and tailor products to client specifications.
- Acted as primary correspondent for clients throughout site development process, leading clients through gathering resources, finalizing brand, and product launch.
- Oversaw administrative processes for the team such as technical infrastructure, hiring, onboarding, development stack and process, and reporting.

Support Web Developer | Sept 2021 – Jan 2023

Rooster Grin Media

- Worked directly with clients for each ticket via support phone line or email support.
- Troubleshoot, debug, and optimize existing web applications for improved performance.
- Employed problem solving skills for a broad range of websites and their unique updates.
